

POSITION

UI Designer

Design interactive mobile
products and create visual
delight

POSITION

UI Designer*

LOCATION

Anywhere

* UX/Graphic Designers need not apply.

We are looking for an individual with an experience in the mobile UI design domain of 2-4 years who loves collaborating with the design and engineering team to define and implement innovative product solutions. You should have superior UI skills, an eye for clean and artful design.

You will

- Translate low fidelity UX wireframes and artifacts into beautiful, intuitive and functional interfaces.
- Conceptualise ideas to visualise data and micro-interactions.
- Establish and promote visual design guidelines.
- Execute all visual design stages from concept to final handoff to engineering.

That's it.

If this sounds like your kind of challenge, take our screening test. We are eager to be impressed by you.

▶ MEDICAL COVER FOR YOUR COMPLETE FAMILY

20 LACS

PEOPLE PRACTICES

WFH

We're currently in work-from-home mode. Anyone who's keen to join us is welcome to work from wherever they are comfortable.

Caravan

Every quarter, or when the pandemic allows, we bring the whole team together for a co-working and co-living experience in interesting, safe locations. WFH continues, but it can never replace the human bonds we cherish (and miss) so much.

Gifts of Growth

Every quarter, we come together to appreciate each other's awesomeness, and help each other grow through our challenges. We find this gifting season far more rewarding than performance reviews.

Uppraisals

Every year, we give flat increments across the organisation, plus ESOPs to every person regardless of their role or experience. We've chosen holistic, collective growth over competitive, individual gain.
